ABOUT ME

I am a motivated and detail-oriented Information Technology student currently pursuing my **Master of Science in Information Technology.** With a solid foundation in programming and web development, I have hands-on experience in **full-stack projects** and a growing interest in **artificial intelligence** and **machine learning.** Passionate about building scalable, user-friendly, and efficient applications, I continuously enhance my technical skills in JavaScript, Python, and modern web technologies. I enjoy problem-solving, teamwork, and contributing to innovative solutions that create real-world impact and business value.
